Gainsborough

euro deadbolt

Make a stylish entrance

Gainsborough's new Euro Deadbolt range is the stylish choice for residential or light commercial applications. The range features concealed fixing, a selection of three durable tarnish-resistant finishes and a choice of round or square escutcheons to provide an elegant, aesthetically pleasing finish.

For added convenience, our 'GR9' 5-pin cylinder allows these deadbolts to be keyed to other Gainsborough products, cylinders are removable for easy keying, the deadbolt backset is adjustable from 60mm - 70mm to cater for varying installation applications and they're designed to suit timber doors 35mm - 45mm thick. A solid brass double cylinder provides superior mechanical performance and prolonged product life, while the 25mm deadbolt throw provides extra security and peace of mind.

It's the perfect combination of style and security, backed by a 5-year tarnish resistant and 10-year mechanical guarantee.

Available in the following finishes

- Brushed Satin Chrome (BSC)
- Satin Chrome (SC)
- Bright Chrome (BC)
